Phoca Open Graph plugin is a Joomla CMS Plugin. It allows adding of open graph information into site. Such information stored in meta tags can be then automatically displayed e.g. on social media websites (Facebook, Twitter, ...).

See source code of this HTML website - the meta tags inside head tag - to see demo of this plugin.

```
<meta property="og:title" content="Phoca Open Graph">
<meta property="og:type" content="article">
<meta property="og:image" itemprop="image" content="http://localhost/demo/images/articles/001-phoca-open-graph
<meta property="og:url" content="http://localhost/demo/index.php/phoca-open-graph">
<meta property="og:site_name" content="Phoca Demo">
```
