

## Android 2.1 Platform

Android™ Market: 65,000 apps and rising. Here you'll find useful apps for every aspect of your life – from popular games to travel guides to financial tools. Powered by the latest Google OS, the WiFi-enabled Epic™ 4G gives you Gmail, YouTube, Google Maps, Google Search and other great Google Mobile apps – not to mention the rest of the Web – at a touch. Speaking of Google Search, use voice-activated search to tell the Epic 4G what you're searching for and watch it serve up results based on your location (when GPS is enabled).

## Super AMOLED™ Touchscreen

The Samsung Epic™ 4G paints a bright picture for movie lovers with a spacious 4-inch Super AMOLED display. The anti-reflective, anti-smudge and anti-scratch screen delivers vivid, colorful and crystal-clear resolution for the best HD-like viewing experience – even outdoors on a bright and sunny day – for an ultra brilliant performance every time. The Super AMOLED screen also uses less power for improved battery life.

## Full Suite of Entertainment On-The-Go

It's not just what you want in a smartphone, but on it, too. The Epic™ 4G is Samsung Media Hub-Ready (coming soon), so you'll be able to watch everything from art house cinema to popcorn flicks on it. Create your own masterpieces with the 5.0MP camera & camcorder with auto-focus, flash and 720p video recording. It comes with a free 16GB memory card, and can hold up to 32GB – fill 'er up with MP3s, Amazon e-books and zippy apps
